The Two Coreys

★★★★

Eighties hunks **Corey Haim** and **Corey Feldman**, who nearly came to blows last season, try to patch things up in season two. First, though, they trade more insults ("Pretentious!" "Selfish!"). Watching these self-absorbed drama queens hash out their beefs is as grating as reality gets. That said, when the troubled pals finally start joint therapy next week, the revelations are truly shocking. (A&E, 10 P.M.)

Haim

Feldman (left, with wife Susie): "I couldn't be happier."

Piper loves her covert job.

WEDNESDAY 6/25

The Baby Borrowers

★★★★

In this six-part challenge, five spoiled teen couples must play parents to strangers' kids — from tots to tweens — for three weeks. They're also given jobs, to illustrate the demands of adult life. (This is news?) While this experiment grows tiresome (they take care of seniors at the end), it still makes for satisfying — and life-changing — drama. Two duos even split up! (NBC, 8 P.M.)

"Mommy" Morgan has a meltdown.

AND DON'T MISS

New bride **Mariah Carey** will perform at (and likely bring husband **Nick Cannon** to) the eighth annual tribute to black entertainment. Also singing live in L.A.: **Usher**, **Lil Wayne**, **Nelly** and **Mary J. Blige**. **D.L. Hughley** hosts. (BET, 8 P.M.)

THURSDAY 6/26

MVP

This drama — think the hockey version of *Army Wives!* — is a juicy summer surprise. Tonight, rookie **Trevor (Dillon Casey)** lands a modeling gig. "Trevor is so naive," Casey tells *Us*. (SoapNet, 11 P.M.)

FRIDAY 6/27

GLAAD MEDIA AWARDS

Janet Jackson, **Kathy Griffin**, **Tom Ford**, **Cindy Crawford**, **Ellen DeGeneres** and others toast gay-friendly TV shows (*Ugly Betty!*), movies, magazines (*Us Weekly!*) and more in this 19th annual salute. (Brovo, 7 P.M.)

MONDAY 6/23

Secret Diary of a Call Girl

★★★★

Call this racy-chic comedy *Lots of Sex and the City*. **Hannah (Billie Piper)** is just a witty, modern London woman — who secretly moonlights as a high-class prostitute named Belle. Belle's latest pickle? Deal with a boorish client at a posh "adult" party. Coming soon: the art of S&M. Glib moments aside, *Girl* is funny, provocative and utterly seductive. Special credit to Piper for giving her character a poignant heart. (Showtime, 10:30 P.M.)
